

We are so grateful for the way our MRCA families have given over the past few years to bring about amazing improvements in our facilities, technology, curriculum, financial assistance, and professional development. Without your generosity, we would not have been able to complete our year via virtual learning in the spring, and we wouldn't be able to plan for the safe reopening of our school in the fall. Here are some of our successes!

Virtual learning was possible in the spring thanks to...

Student  
Chromebooks

New Curriculum

Faculty  
Laptops

Teacher  
Training

Video  
Technology

We can safely reopen in the fall with...

No-Contact  
Water Fountains

Updated  
Lunchroom Furniture

Classroom  
Furniture Upgrades

Plus, MRCA families received financial assistance to ensure their children could continue to receive a Christ-centered education during one of the most difficult economic times in recent history!
